Collaborative Agreement for Research Development Cell Activities under the purview of the existing MOU between Hiralal Mazumdar Memorial College for Women and Government Girls General Degree College

As a part of collaborative research initiative between the two colleges under the mandate of UGC, the two colleges have agreed to work jointly on societal challenges of our country with an emphasis on research, innovation and technology development. The goal is to build a conducive environment for enhanced research productivity, encourage collaboration across industry, government, community-based organizations and agencies at the local/national/international levels and to facilitate greater access to research through mobilization of resources and funding. To achieve the target, an organizational structure would be created with role-based functions of Research Development Cell, Research Policy would be formulated to identify thrust areas of research and form cluster groups/frontline teams/consortia of researchers. Colleges will take the initiative to mobilize funds from outside such as UGC, ICSSR, DST, DBT. Further the colleges may provide funds to promote research-based projects initiated by the students, subject to the approval of competent authority.

REPORT on college level seminar on **“Energy conservation and Energy Efficiency”**

A two-day college level seminar on **“Energy conservation and Energy efficiency”** was organized by Seminar Subcommittee with IQAC on 7th and 8th June 2022. The seminar was jointly conducted by the college in collaboration with Petroleum Conservation Research Association (PCRA). In both the sessions on 7th and 8th June 2022, the eminent speaker was Mr. Sushanta Roy (B.E). Former Faculty, PCRA, Kolkata. The speaker delivered a very informative lecture on how the petroleum reserves are getting exhausted rapidly from the mother Earth by the indiscriminate use of the conventional energy resources by different Nations. It is therefore absolutely needed to generate awareness amongst all to conserve these conventional energy resources and to find out some alternate energy sources.

The two days seminar lecture was attended by students from different departments of the college along with faculty members. All total 93 students attended the seminar – 48 students on the 1st day on 7th June and 45 students on the 2nd Day i.e. on 8th June, 2022. The lecture was followed by a very interesting interactive session where the students participated with great enthusiasm to interact with the resource person on different queries related to renewable energy sources.
